# MacBook Pro

## Latest Intel mobile architecture

Powered by the most advanced mobile processors from Intel, the new Core 2 Duo MacBook Pro is over 50% faster than the original Core Duo MacBook Pro and now supports up to 4GB of RAM.

### Leading-edge graphics

The NVIDIA GeForce 8600M GT delivers exceptional graphics processing power. For the ultimate creative canvas, you can even configure the 17-inch model with a 1920-by-1200 resolution display.

### Designed for life on the road

Innovations such as a magnetic power connection and an illuminated keyboard with ambient light sensor put the MacBook Pro in a class by itself.

### Connect. Create. Communicate.

Quickly set up a video conference with the built-in iSight camera. Control presentations and media from up to 30 feet away with the included Apple Remote. Connect to high-bandwidth peripherals with FireWire 800 and DVI.

#### Next-generation wireless

Featuring 802.11n wireless technology, the MacBook Pro delivers up to five times the performance and up to twice the range of previous-generation technologies.
